

Facility:

During the heavy rains on September 30 there were eight roof leaks in five different areas of the library, including over the art show. Fortunately there was no serious damaged except to ceiling tiles.

Programming:

The library presented 21 programs during September. The programs included book discussions, a program on photo editing, genealogy workshops and a poet and his publisher. One hundred twenty-seven people attended the various programs.

Other:

Susan Fuller attended a meeting of the Rochester Area Libraries Co-op on September 3. A local author and publisher presented a program on the ways in which publishing has changed in recent years.

Statistics:

There were 7,427 visits by library users during the month of September. Circulation figures decreased by 7% from September 2014 figures with 8,632 items borrowed from the library during the month. On the other hand, the number of questions asked by library visitors increased by 26% and internet usage increased by 65%. These statistics clearly show the trend toward more interaction between staff and library visitors, as well as more use of and requests for help with technology.
